FIRST SCREEN:

A few weeks ago you completed a survey on different topics about the political situation in your country. This is a continuation of that study. Your participation this third time is very important and will help us learn the opinions of people living in Chile regarding the current political situation and the functioning of democracy in the country. The problems and challenges of our political and social systems require a good study of citizens' opinions and therefore your attentive and dedicated participation is essential for this study and to understand the major problems of current democracies. Your answers will remain completely anonymous and will only be subject to statistical analysis together with those of the hundreds of other participants.

This is a survey designed by a group of national and international researchers as part of a project led by a professor at the Pompeu Fabra University, who is interested in studying the opinions of people like you on issues related to political, economic and social events. Thus, you will be part of a group of 1,200 people from all over Chile participating in this study.

If you have doubts, complaints, or questions about this study or about your rights as a research participant, you may contact UPF's Institutional Committee for the Ethical Review of Projects (CIREP) by phone (+34935422186) or by email (secretaria.cirep@upf.edu). CIREP is not part of the research team and will treat any information you send confidentially.

Conjoint Experiment:

The idea is prove the “Social and Ideological sorting” behind social partisan identity.

I propose a “paired-profile” design.

Table of the list of possible attribute values for neighbours in the affective social sorting experiment (Chile)

National/regional identity	From Santiago (‘Santiaguino’) VS from the inner region
Ideology	Left (linked to Frente Amplio (FA), Communist Party (PC), Socialist Party (PS), Partido por la Democracia (PPD)), Right (Linked to Partido Republicano, Unión Demócrata Independiente (UDI), Renovación Nacional (RN)), Center (linked to Partido Demócrata Cristiano (DC), Partido de la Gente)
Immigrants	Born in Chile (with 4:3 odds), born outside Chile (with 4:1 odds)
Same sex partner vs. heterosexual	Man-and-woman unit (with 1:2 odds) VS man-and-man (with 1:4 odds), woman-and-woman (with 1:4 odds)
Party supporter	Frente Amplio (FA), Communist Party (PC), Socialist Party (PS), Unión Demócrata Independiente (UDI), Renovación Nacional (RN), Partido Demócrata Cristiano (DC) Partido Republicano, Partido por la Democracia (PPD)
Education	University education, basic education
Environmentalism	Recycler, Non-recycler
Pet owner	Pet owner, non-pet owner (placebo)
Religion	Catholic, Evangelical, Protestant (historical), Jewish, no religion
Politicisation	Outwardly political, keeps their political views to themself

Question wording:

Many people are able to select the neighbourhood where they prefer to live, but we do not have the option to choose our next door neighbours. If you could choose the basic characteristics of the family unit moving next door to you...

Which profile would you prefer to have as your next-door neighbour?

- 1. Neighbour A**
- 2. Neighbour B**

[PROGRAMER: First time each respondent responds vary randomly the order of attributes then maintain it fixed. Thus: Every respondent should see the attributes in the same order for each of the 10 scenarios, but that order randomly varied across respondents].

Neighbour A	Neighbour B
From Santiago (‘Santiaguino’)	Inner region
Left-wing	Right-wing
Born in Chile	Born outside Chile
A man-and-woman family unit	A man-and-man family unit
UDI supporter	FA supporter
University education	Basic education
Recycler	Non-recycler
Non-pet owner (dog, cat...)	Pet owner (dog, cat...)
Catholic	No religion
Keeps their political views to themself	Is outwardly political

We would also like to know your feelings about some groups of people in Chilean society, using this thermometer.

Ratings between 60 and 100 mean that you have rather favourable feelings toward that group of people, with 100 being very favourable; while ratings between 0 and 40 mean instead that you have rather unfavourable feelings toward the group, with 0 being very unfavourable. If you do not have particularly favourable or unfavourable feelings toward a group, you should choose a 50 grade rating.
